

**In the Specification:**

The following specification amendments are presented as replacement paragraphs to show changes made relative to the immediate prior version as set out in 37 C.F.R. §1.121(a)(1) to conform to the application and drawings. The changes are shown by strikethrough for deleted matter and underlining for added matter.

Amend paragraph 177 as follows:

**[0177]** Referring to Figure 48, a decorative molding strip 520 is shown in a closed position. The molding strip 520 comprises a base strip 561 having spaced inside 564 and outside 566 edges. The base strip 561 further includes a plurality of apertures 568 for attaching the base strip 561 to the support structure 14. Nails or threaded fasteners may be used to attach the molding strip 520 to the support structure 14 via the apertures 568.

Amend paragraph 179 as follows:

**[0179]** The decorative strip 570 has spaced inside 572 and outside 574 edges. A sidewall 578 interconnects the inside edges 564,572 of the base strip 561 and decorative 570 strips. A living hinge 580 interconnects the sidewall 578 and the decorative strip 570. The living hinge 580 permits the decorative strip to be folded or rotated toward the base strip 561. In this manner, the base strip 561 may be attached to the support structure 14 and the decorative strip 570 may be pivoted about the living hinge 580 to the closed position over the base strip 561 to hide the apertures 568 and the adjacent fasteners (not shown) that attach the molding strip 520 to the support structure 14.

Amend previously amended paragraph 222 as follows:

**[0222]** With reference to Figure 73, an exterior trim assembly 1000 according to another embodiment of the present invention is shown. The exterior trim assembly 1000 includes a mantle base 1002 for attachment above a window or door and a decorative mantle cover 1004 for mating with the mantle base 1002 in accordance with the previous embodiment of the invention as shown in Figure 64 and specifically Figure 66. A decorative key stone can be added to the face of the mantle cover 1004 by first attaching key stone base ~~1032a~~ 1032b to mantle cover 1004 and then snapping the key stone cover 1032a over key stone base 1032b and mantle cover 1004.
